Subject Index—Volume 56

Aviation

FEPP used for cooperative firefighting. Bill Peters. 56(3):17-18
Interagency cooperation—the future built from the past. Maryjane Cavaioli. 56(1):4-6

Communication

Confinement—a suppression response for the future? Francis Mohr; Bob Both. 56(2):17-22
Congratulations to telecommunity for Internet access project. Albert Gore. 56(4):2
Employee Assistance Program. Ronald F. Wilson. 56(4):5
FEPP? What in the world is FEPP? April J. Baily. 56(2):26-27
Fire 21—fire management in the 21st Century. Michael G. Apicello. 56(3):4-5
Firefighter arson: Local alarm. Ken Cabe. 56(1):7-9
Free fire equipment catalog available. 56(4):21
Hondo fire emergency on the Information Superhighway. James E. Stone. 56(4):22-23
How IC's can get maximum use of weather information. Christopher J. Cuoco; James K. Barnett. 56(1):20-24
How to order the "Federal Wildland Fire Management Policy and Program Review." Jill R. Style. 56(3):16
Leaders committed to FIRE 21. Mary Jo Lavin. 56(3):6
1997 Wildland Fire Conference in Canada. Jill R. Style. 56(2):25
NVFC offers retention and recruitment video. 56(2):12
Shout, "Watch out—snag!" Matt Valdez and Jill R. Style. 56(3):26-27
"Spark arrester guides" available. Jill R. Style. 56(2):22
Use the connections—no one is an island. James E. Stone. 56(4):4-6
When a firefighter gets burned. Clinton E. Tempereau. 56(3):21-22

Cooperation

Congratulations to telecommunity for Internet access project. Albert Gore. 56(4):2
FEPP used for cooperative firefighting. Bill Peters. 56(3):17-18
FEPP? What in the world is FEPP? April J. Baily. 56(2):26-27
Hondo fire emergency on the Information Superhighway. James E. Stone. 56(4):22-23
Interagency cooperation—the future built from the past. Maryjane Cavaioli. 56(1):4-6
NASF's perspective on FIRE 21. Stanley F. Hamilton. 56(3):6-8
1997 Wildland Fire Conference in Canada. Jill R. Style. 56(2):25
Pacific Northwest contract for engines, tenders, and crews. Arnie Masoner. 56(3):19-20
Recipients of 1995 Smokey Bear Awards honored. Janice L. Smith. 56(3):23-25

Ecosystem Management

Biswell Symposium proceedings published. 56(2):16
Confinement—a suppression response for the future? Francis Mohr; Bob Both. 56(2):17-22
National prescribed fire awards recognize excellence. David L. Bunnell. 56(4):12-13
NPS Prescribed Fire Support Modules—a pilot program. Ben Jacobs. 56(2):4-6
The role of leadership in an ecosystem approach to fire management. Hal Salwasser. 56(3):9-10
Rx fire research for Southwestern forests. David R. Weise; Stephen S. Sackett; Timothy E. Paysen; Sally M. Haase; Marcia G. Narog. 56(2):23-25
Stand-replacement burn in the Ocala National Forest—a success. George Custer; James Thorsen. 56(2):7-12
Survival of fire-injured conifers. Paul Flanagan. 56(2):13-16

Equipment

Anaphylaxis: The danger of stinging insects. Paul T. Flanagan and Michael J. Fadich. 56(4):19-21
Can earthworms survive fire retardants? W. Nelson Beyer; Albert Olson. 56(1):25-26
Do firefighters need beverages that replace carbohydrates and electrolytes? Kevin Lee. 56(1):10-11
Fast, inexpensive fireline construction. Nathan P. Arno; Stephen F. Arno. 56(1):17-19
FEPP used for cooperative firefighting. Bill Peters. 56(3):17-18
FEPP? What in the world is FEPP? April J. Baily. 56(2):26-27
Free fire equipment catalog available. 56(4):21
Interagency cooperation—the future built from the past. Maryjane Cavaioli. 56(1):4-6
Pacific Northwest contract for engines, tenders, and crews. Arnie Masoner. 56(3):19-20
"Spark arrester guides" available. Jill R. Style. 56(2):22
A 10-Cent, unbreakable foam nozzle for a backpack pump. Tom French. 56(1):15-16

Fire Behavior

Monitoring live fuel moisture—a task force report. David R. Weise and James M. Saveland. 56(3):12-16.
Stand-replacement burn in the Ocala National Forest—a success. George Custer; James Thorsen. 56(2):7-12

Fire Effects

Survival of fire-injured conifers. Paul Flanagan. 56(2):13-16

Fuel

Keetch-Byram Drought Index revisited: Prescribed fire applications. Mike Melton. 56(4):7-11
Monitoring live fuel moisture—a task force report. David R. Weise and James M. Saveland. 56(3):12-16

General Fire Management

Can earthworms survive fire retardants? W. Nelson Beyer; Albert Olson. 56(1):25-26
An evaluation of Michigan's burn permit moratorium. Donald Johnson. 56(4):14-18
Fast, inexpensive fireline construction. Nathan P. Arno; Stephen F. Arno. 56(1):17-19
Fire 21—fire management in the 21st Century. Michael G. Apicello. 56(3):4-5
How to order the "Federal Wildland Fire Management Policy and Program Review." Jill R. Style. 56(3):16
"Investigating Wildland Fire Entrapments" now available. 56(1):9
Leaders committed to FIRE 21. Mary Jo Lavin. 56(3):6
Monitoring live fuel moisture—a task force report. David R. Weise and James M. Saveland. 56(3):12-16
NASF's perspective on FIRE 21. Stanley F. Hamilton. 56(3):6-8
1997 Wildland Fire Conference in Canada. Jill R. Style. 56(2):25
NVFC offers retention and recruitment video. 56(2):12
The role of leadership in an ecosystem approach to fire management. Hal Salwasser. 56(3):9-10
Survival of fire-injured conifers. Paul Flanagan. 56(2):13-16

A 10-Cent, unbreakable foam nozzle for a backpack pump. Tom French. 56(1):15-16
Wildfire suppression as part of FIRE 21. Robert C. Joslin. 56(3):11

Personnel

Employee Assistance Program. Ronald F. Wilson. 56(4):5
Firefighter arson: Local alarm. Ken Cabe. 56(1):7-9
"Investigating Wildland Fire Entrapments" now available. 56(1):9
Leaders committed to FIRE 21. Mary Jo Lavin. 56(3):6
National prescribed fire awards recognize excellence. David L. Bunnell. 56(4):12-13
NPS Prescribed Fire Support Modules—a pilot program. Ben Jacobs. 56(2):4-6
NVFC offers retention and recruitment video. 56(2):12
Pacific Northwest contract for engines, tenders, and crews. Arnie Masoner. 56(3):19-20
Recipients of 1995 Smokey Bear Awards honored. Janice L. Smith. 56(3):23-25
The role of leadership in an ecosystem approach to fire management. Hal Salwasser. 56(3):9-10
Use the connections—no one is an island. James E. Stone. 56(4):4-6
When a firefighter gets burned. Clinton E. Tempereau. 56(3):21-22
Wildfire suppression as part of FIRE 21. Robert C. Joslin. 56(3):11
WIMS wins accolades. Neale A. Shultz. 56(1):31

Planning

Biswell Symposium proceedings published. 56(2):16
Fire 21—fire management in the 21st Century. Michael G. Apicello. 56(3):4-5
How to order the "Federal Wildland Fire Management Policy and Program Review." Jill R. Style. 56(3):16
NASF's perspective on FIRE 21. Stanley F. Hamilton. 56(3):6-8
Rx fire research for Southwestern forests. David R. Weise; Stephen S. Sackett; Timothy E. Paysen; Sally M. Haase; Marcia G. Narog. 56(2):23-25
Use a comparison model to guide technology decisions. Paul M. Schlobohm. 56(1):12-14

Prescribed Burning

Biswell Symposium proceedings published. 56(2):16
Keetch-Byram Drought Index revisited: Prescribed fire applications. Mike Melton. 56(4):7-11
National prescribed fire awards recognize excellence. David L. Bunnell. 56(4):12-13
NPS Prescribed Fire Support Modules—a pilot program. Ben Jacobs. 56(2):4-6
Rx fire research for Southwestern forests. David R. Weise; Stephen S. Sackett; Timothy E. Paysen; Sally M. Haase; Marcia G. Narog. 56(2):23-25
Stand-replacement burn in the Ocala National Forest—a success. George Custer; James Thorsen. 56(2):7-12

Prevention

An evaluation of Michigan's burn permit moratorium. Donald Johnson. 56(4):14-18
Recipients of 1995 Smokey Bear Awards honored. Janice L. Smith. 56(3):23-25
"Spark arrester guides" available. Jill R. Style. 56(2):22

Safety

Anaphylaxis: The danger of stinging insects. Paul T. Flanagan and Michael J. Fadich. 56(4):19-21
Do firefighters need beverages that replace carbohydrates and electrolytes? Kevin Lee. 56(1):10-11
"Investigating Wildland Fire Entrapments" now available. 56(1):9
Shout, "Watch out—snag!" Matt Valdez and Jill R. Style. 56(3):26-27
When a firefighter gets burned. Clinton E. Tempereau. 56(3):21-22

Suppression

Can earthworms survive fire retardants? W. Nelson Beyer; Albert Olson. 56(1):25-26
Confinement—a suppression response for the future? Francis Mohr; Bob Both. 56(2):17-22
Fast, inexpensive fireline construction. Nathan P. Arno; Stephen F. Arno. 56(1):17-19
How IC's can get maximum use of weather information. Christopher J. Cuoco; James K. Barnett. 56(1):20-24

A 10-Cent, unbreakable foam nozzle for a backpack pump. Tom French. 56(1):15-16
Use a comparison model to guide technology decisions. Paul M. Schlobohm. 56(1):12-14
Wildfire suppression as part of FIRE 21. Robert C. Joslin. 56(3):11

Systems

Congratulations to telecommunity for Internet access project. Albert Gore. 56(4):2
Hondo fire emergency on the Information Superhighway. James E. Stone. 56(4):22-23

Use a comparison model to guide technology decisions. Paul M. Schlobohm. 56(1):12-14

WIMS wins accolades. Neale A. Shultz. 56(1):31

Training

Anaphylaxis: The danger of stinging insects. Paul T. Flanagan and Michael J. Fadich. 56(4):19-21
Do firefighters need beverages that replace carbohydrates and electrolytes? Kevin Lee. 56(1):10-11
Employee Assistance Program. Ronald F. Wilson. 56(4):5
Firefighter arson: Local alarm. Ken Cabe. 56(1):7-9
Interagency cooperation—the future built from the past. Maryjane Cavaioli. 56(1):4-6
Shout, "Watch out—snag!" Matt Valdez and Jill R. Style. 56(3):26-27
Use the connections—no one is an island. James E. Stone. 56(4):4-6

Weather

An evaluation of Michigan's burn permit moratorium. Donald Johnson. 56(4):14-18
How IC's can get maximum use of weather information. Christopher J. Cuoco; James K. Barnett. 56(1):20-24
Keetch-Byram Drought Index revisited: Prescribed fire applications. Mike Melton. 56(4):7-11
WIMS wins accolades. Neale A. Shultz. 56(1):31 ■
